

# VAMPIRES

In this topic i'm going to talk about vampires and where the various legends come from also im going to talk about some scientific explanations for **vampirism**

**Let's start talking** about how the legend of vampire started

**Vampire** is popular legend a creature that appeared in 18 th century in eastern europe actually vampires is a creature that is the result of a union between a vampire and a human

**Let's begin with the legend Count Dracula** who doesn't know **dracula** the most famous vampire

**Count dracula** a centuries-old vampire in Transylvania

**Count Dracula** known as **chief of vampires** and the leader, he built his castle in the Carpathian Mountains also he can assume the form of an animal and he is stronger than twenty men his powers are limited, however he cant enter a victim's home unless invited

They say that **vampires** are using their protruding fangs to puncture their victims necks

**A vampire** also may take the form of an animal usually a bat or wolf

Actually a person may become a **vampire** in a different ways for example the most common way is to be bitten by vampire and there is other methods also as sorcery , committing suicide , contagion , or having a cat jump over a persons corpse and also. some people believed that babies born with teeth on christmas may become vampire isn't that crazy

**Let's talk now** about what scientific explanation say about it

Today some of the more vampire myths can be explained with science

They say that **vampires** were really just people who suffered from porphyria a condition that makes a person sensitive to sunlight

Well there is a different type of **vampire** some are able to turn into bats or wolves but others can't also some are said they don't cast a reflection, but others do.

**In conclusion** there are few people who believe that **vampires** are real, but when it comes to movies, television and books they are very popular to watch or to listen to vampires stories

## Summary

Vampires is a popular urban stories it's a creature that appeared in pennsylvania, the first one was Count Dracula. A lot of people don't believe in vampirism while some people do but no one has the real explanation for this creature and it still a mysterious urban legend.
