Summary: What is the meaning of love? Love is that feel confused most of the poetries and the writers. However, there are a types of love in the life, all are powerful and amazing.

Hello everyone

My name is ismail

I'm going to talk about LOVE

Love is the most powerful feeling in the world

People think that the one kind of love is between lover

But no, there is mother's love, family's love, brother's love, sister's love, and friendship love

These are some kinds of love in the life

Lord Tennyson wrote a poem called In memoriam about his love for his friend who died suddenly. And the poem is a requiem for his dead friend

One quotation that i really like from his poem says:

"It's better to have loved and lost
than never to have loved at all"

These lines mean: The pain of loss does not outweigh the pleasure of love

Lord tennyson is greatfull that he has known his friend and loved him while he was alive, and it's better than not knowing him at all.

There is a movie you all know it called Frozen. The only thing that could heal the sick girl was true love. She thought the prince was her true love but no, her love for her sister was the true love.

Love can get you out of your darkest days
Love can change you to be a better person
Love can make the sky more blue
Love can make you the happiest person alive
Or it could break you and leave you empty
So choose wisely.
